

A 40 ft SLC with copper being unloaded

A load of Copper towed out on a 40 ft SLC with side supports.

A 40 ft SLC offers the flexible loading for both long and short pieces.

A 40 ft liftable SLC

This picture shows a 40 ft SLC after it has been rolled out of a 40 ft container.

After being lifted the SLC is then secured on a Skel trailer via twist locks, all with just one lift.

22 tonne SLC lifted by a Mobicon
